

NAW Large Company Operations Roundtable

Warehouse Operations Best Practices

Warehouse Operations Best Practices

- Bin Locators (input into ERP when product is put away)
- Productivity Track, Rank, Publish (by team &/or individual)
- Monthly Safety Inspections; Monthly Safety Topics/Training
- Shift Start-up Huddles (Scheduling, Priorities, Safety)
- Cross Training (Pick/Pack/Ship, Saw Operations, CNC Routers, etc.)
- Fast Movers (ABC SKU analysis) stored closest to the docks
- Keep repack or obsolete materials near the office – very visible
- WMS (Warehouse Management Systems)
- Personal Protective Equipment (Eyes, Gloves, Shoes, Hearing, etc.)
- Pedestrian walking paths/zones
- Driver waiting areas – clear processes and rules for visitors
